Quarters for medical Subordinates

From

The Senior Surgeon

No. 902 Dated 24.6.09 Received 28.6.09

Diary No. 9398	Enclos.	Spare Copies	Serial No. 25

BRIEF ABSTRACT OF LETTER.

States that in a place like Seringapatam, it is desirable that the medical officer should be hygienically housed and recommends that a house ~~for the Hospl Asst~~ on the Standard plan be provided for the use of the Medl officer in charge of the dispensary at the place.

NOTES AND ORDERS.

The estimated cost of constructing quarters for a Hospl Asst according to the Standard plan amounts to Rs 2000/. The Dist Board of Mysore and the Seringapatam Mul Board have each to contribute a sum of Rs 667 towards the cost of construction

Notes—First sheet

GPB—30,000—3-4-07.

Serial No.

of quarters for the medl officer at Seringapatam. From the enclosure to paper under disposal it will appear that the want of separate quarters for the medl officer at Seringapatam seems to be pressing.

x med 26 3-08

In the file re: opening of a Vaidyasala at Basral, the Jail Asst Secy has noted that the Dist Board of Mysore cannot undertake more expenditure recurring or non-recurring, as the financial condition of the Board is one of deficit for 3 consecutive years 1907 to 1909.

2 The financial condition of the Seringapatam Munl Board according to the Sanctd budget estimates for 1909-10 is shown below:—

	Rs
Opening balance	4392
Receipts	10145
Total	14537
Expenditure	12037
Closing balance for 1909-10	2500 ie Rs 36 less than the prescribed minimum

3. Provision has been made in the current year's budgets vide 7d ibid on account of contribution towards cost of construction of quarters for the medl subordinates at Malavalli & Yedatore in the Mysore Dist.

The Senior Surgeon may, if applied, be

Consulted in the matter of giving precedence to Seringapatam over either of the two places referred to, in respect of prov.ⁿ of quarters for medical Subordinates.

Submitted for orders.

Rec.ᵈ 4. 7. 09. I do not know if the medical officers, who were in charge of Seringapatam Dispensary before the present incumbent made any complaint similar to that now received. Malavalli and Yedatore have been selected for the current year (1909-10) and Seringapatam may come next or take its turn. It may not be impossible to make the building habitable by effecting some necessary repairs. A copy of the Asst Surgeons letter may be sent to the Chief Engineer and a report called for as to the condition of the building

From

Lt.-Col. John Smyth, M.D., I.M.S.,

Senior Surgeon with the Government of
H. H. the Maharaja of Mysore, Bangalore.

To

C.S. Balasundaram Iyer Esqr., B.A.,
Offg. Secretary to the Govt., of H.H. the
Maharaja of Mysore, Genl.& Rev.Deptts.,
Bangalore.

Sir,

In forwarding the accompanying copy of Memo No. 900, dated, 14-6-1909, from the District Medical and Sanitary Officer, Mysore District, giving cover to letter No. 166, dated, 3-6-1909, from the Hon. Assistant Surgeon in charge of the Seringapatam Dispensary, anent the condition of the quarters provided for the use of the Medical Officer, I have the honor to recommend that a house for the Hospital Assistant on the standard plan be erected. It is clearly desirable that in such a shocking place as Seringapatam, the Medical Officer should be hygienically housed.

I have the honor to be,

Sir,

Your most obedient servant,

By order,

Personal Assistant,

For Senior Surgeon, Mysore Govt.,

SUBJECT.

Grant the quarters
provided for use of
the Medl Officer in charge
of Seringapatam Disy:

Letter No. 166 dated 3-6-1909 from the Hon Asstt Surgeon, Seringapatam, to the District Medical and Sanitary Officer, Mysore District.

In forwarding for your kind information the accompanying ground plan of the quarters provided for use of the Medical Officer in charge of Seringapatam Dispensary, I have the honor to represent the following.

The roof of the whole building leaks right through; most of the tiles have been blown off and require replacing.

2. The verandah 5' 2" x 23' in front of the entrance is more a nuisance than otherwise; it faces west and during the rains receives all the water which beats against the walls, and this water remains on the floor to a depth of 3 or 4 inches right through, and prevents inmates moving in and out, besides acting as a most fruitful site for producing such diseases which result from exposure to cold and damp.

3. The dining room 12' 11" x 9' 11" being situated just near the veranda quoted above draws in all the moisture from the water which remains collected in the veranda and prevents occupation. From its small size does not answer the purpose it is ~~inden~~ intended for, as it has to answer also the purpose of a separate room to keep furniture and boxes which contain articles of valuable dress &c., as also to answer the purpose of a small drawing room.

4. The bed room 7' 11" x 9' 11" also is small and could not be conveniently put to the use it is intended for, as also on account of the moisture in the veranda which is quite near.

5. The kitchen or cook room 5' 11" x 6' from its small size does not answer the purpose and from its ~~portion~~ position, being so near and adjoining the bed room is a source of gret nuisance, as it sends all the smoke into the bed room and dining hall, where dresses and other

articles

articles belonging to the bed are spoiled.

6. The bath room 6' x 6' has got all the defects pointed out in No. 5.

7. The walls both in and outside require colour and white washing badly. The two doors facing north and south respectively are being eaten up by white ants and their frames are under-going destruction by the same agents and in a few days more, may not keep the door on its hinges.

One of the walls holding the door to the north is being gradually washed down and it is feared that in a few days more during the present rains, the door and its frame will come down. Both the doors are unsafe.

Under the circumstances and conditions the building intended for residence, has become unfit and unsafe for occupation with the result that I am constrained to engage a house in the Port on a monthly rent to reside, an arrangement not very convenient both to the Medical Officer and the patients or their relatives who have to run about, during midpart of the night, long distance from house to the Dispensary one to render and the other to receive the much needed medical aid, as has happened now and again since my assuming charge of the Institution.

Under the existing arrangement, to submit that the object of establishing such a useful institution as a Dispensary with quarters for the Medical Officer's residence becomes greatly minimised if not entirely lost.

From the dimensions quoted in the enclosed ground plan it will be easily seen how small the rooms are and how limited the accommodation is and so do not bear any comparison with those buildings provided for use of Medical Officers in most of the out stations and above all at the Victoria Hospital.

Consequently to suggest that a new and separate building with better accommodation, out houses and latrine

may

may be provided for, and the present building made over for use of the Compounder or Midwife who also have to reside near the Dispensary to be available for duty at any part of the day or night.

In case a new and separate building could not be provided for, in the near future, to solicit that the existing building may be extended by giving an additional room 15' x 20' towards the north, with some out houses and latrine.

No.966 dated 14-6-1909 from the District Medical and Sany. Officer, Mysore District.

Submitted to the Senior Surgeon, Mysore Govt., for favour of disposal.
